

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1.	Create a map of railway route of Borivli to Bandra including the buildings adjacent to rails. Use google maps to find the layers. There should be minimum five layers	20
2.	Create dataset for any two layers of the above	20
3.	Viva	5
4.	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1.	Create a map of railway route of CST to Wadala including the buildings adjacent to rails. Use google maps to find the layers. There should be minimum five layers	20
2.	Create dataset for any two layers of the above	20
3.	Viva	5
4.	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Create vector layers for your known area. And add the required data to demonstrate the following queries a) Queries using query builder b) Use of distance matrix	40
2	Viva	5
3	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1.	Create a map using print composer and include a legend, north arrow. Create the map for the following picture. In this picture, create only the following layers - Broad gauge line - Major railway junctions such as Ahmedabad, Baroda, Bharuch, Ratlam, Nagda, Palanpur, Jalgaon	40
		
2.	Viva	5
3.	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Demonstrate the basic raster analysis and styling. Use population density grid data.	40
2	Viva	5
3	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016
GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Create minimum five vector layers with dataset	25
2	Fire queries using “disjoint”, “crosses”, “Touches”	15
3	Viva	5
4	Journal	5

U UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016
GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Create minimum five vector layers with dataset	25
2	Fire queries using “Contains”, “Crosses”, “Within”	15
3	Viva	5
4	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016
GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Create minimum five vector layers with dataset	25
2	Fire queries using “Contains”, “Within”, “Touches”	15
3	Viva	5
4	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Create a raster layer using the Alaska image given.	10
2	Create a map using print composer by adding legend, north arrow, scale	30
2	Viva	5
3	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Create vector data. (Add minimum 4 layers) a. Add point objects b. Line c. Polygons Also prepare appropriate database.	30
2	Demonstrate the use of analytical tools distance matrix, points in polygons.	10
2	Viva	5
3	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Create vector data. (Add minimum 5 layers) Also prepare appropriate database.	30
2	Demonstrate the use of Basic statistics and Listing unique values.	10
3	Viva	5
4	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Create vector data. (Add minimum 5 layers) Also prepare appropriate database.	20
2	Do image registration of the map using MATLAB	20
2	Viva	5
3	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Assume you have to create a map that represents the railway track in Mumbai. Do the following for the same. Create vector data. (Add minimum 4 layers) a. Add point objects b. Line c. Polygons	20
2	Also prepare appropriate database. Fire at least five spatial queries.	20
3	Viva	5
4	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Create vector layers from the given shape files	10
2	Also prepare appropriate database. Fire at least five spatial queries.	30
3	Viva	5
4	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Create vector layers for the map from Vashi to Airoli rail route. Take the help of google maps for this. Add dataset to the layers.	20
2	Demonstrate the use of analytical tools line intersection, points in polygons.	20
3	Viva	5
4	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Create vector layers of your own residential area taking the help from Google map.	15
2	Demonstrate all vector analysis functions for the dataset created for the above layers	25
3	Viva	5
4	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Create vector layers of your own residential area taking the help from Google map.	20
2	Perform network analysis	20
3	Viva	5
4	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1	Assume you have to create a map that represents the roadways in your city. Do the following for the same. Create vector data. (Add minimum 4 layers) a. Add point objects b. Line c. Polygons Also prepare appropriate database	20
2	Fire all spatial queries	20
3	Viva	5
4	Journal	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1.	Create vector layers representing the following features: i) Railway Stations ii) Railway track iii) Create appropriate database for the given features	20
2.	Demonstrate the use of distance matrix tool find out the distance between the stations	20
3.	Journal	5
4.	Viva	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1.	Perform Terrain analysis of the given raster	20
2.	Perform image registration using MATLAB	20
3.	Journal	5
4.	Viva	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1.	Create vector layers with points, lines and polygons (add minimum four layers) Also find basic statistics	20
2.	Perform vector data classifications on it	20
3.	Journal	5
4.	Viva	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1.	Create railway track from BANDRA TO CST with the following features • Stations in between • Water bodies closed to the track	20
2.	Fire any four spatial queries on it	20
3.	Journal	5
4.	Viva	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016

GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1.	Create minimum four vector layers Also create a data model for the map.	20
2.	Fire any four spatial queries on it	20
3.	Journal	5
4.	Viva	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016
GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1.	Create vector data with minimum four layers. Create an appropriate database	20
2.	Demonstrate the use of analysis tools points in polygon, distance matrix	20
3.	Journal	5
4.	Viva	5

UNIVERSITY OF MUMBAI
T.Y.B.Sc. INFORMATION TECHNOLOGY (Semester VI) (Practical) EXAMINATION
April 2016
GEOGRAPHIC INFORMATION SYSTEMS

Seat No: _____

Max Marks: 50

1.	Perform raster analysis on the given file	20
2.	Demonstrate Zonal Statistics	20
3.	Journal	5
4.	Viva	5
